

Cusrom Jewellery work flow

It is my outmost aim to create a beautiful, unique and befitting vreation that will suit your needs and wishes.

After our inittial conversation, a quote inclusive of design and production costs, will be send to you. This quote needs to be physically signed or give a precise verbal consent via email.

Design: A one off design cost is \$250. Includes one deisgn+ 1 round of djustments within your original design specification.

Any additional adjustments made after, will incur a design fee. (\$110/hr)

An image for approva will be sent to you withl in approximately 7 working days.

The initial design fee needs to be paied at design commencement. This fee is non refundable

Additional design costs will be paid before production starts. This payemnt will often be times with partial or full production costs.

Production

Production consists of materials, and jewellery processing costs.

Maerials: cost of materials vary depending on the specific piece. Materials are subject to change till time of invoicing depending on market changes in metal prices.

In house production/ Out of house production

Full payment of production costs will be required before commencement of production. This fee is non refundable.

For card payment an additional %2 will be added to each payment.
